## Good Intentions

During the recent lockdown due to the pandemic, many people found themselves turning to nature. There was a surge of interest in gardening. People tended to flower beds, planted seeds and started herb gardens. Lots of people commented that they noticed the birds singing for the first time in years. In the midst of challenging times, we found ourselves tuning in to the wonder of God's creation all around us.

In this **Season of Creation**, we are invited to see the wonder of God in creation, to give thanks for the gift of the earth, and to change our ways so that we may live in harmony with creation. This requires us to be constantly conscious of how we are living- to not just have good intentions but to follow them through in our actions.

In **today's gospel**, Jesus tells us the **parable of the two sons** who are asked to go and work in their father's vineyard. The first son initially refuses, but then thinks the better of it and gets to work. While the second son has good intentions, but he doesn't follow through. **When it comes to caring for the earth, good intentions are not enough. Our actions matter.** We may have been careless in the past but a change of heart is happening, right across our society. It all starts with our actions as individuals and communities.

Let us use the **Season of Creation** to reflect on how we can do better- to reconnect with God's beautiful creation and to do all we can to love and preserve it.
